

April 1, 2015

Notice of Product Consolidation and Discontinuation

Sankyo Seisakusho is currently reorganizing its roller drive product lineup, and some models will be discontinued in favor of others. As part of this product consolidation, we have decided to phase out the RY Series of roller drives. While moving forward with this Consolidation process we ask for our customers patience and understanding.

The timeline schedule of the reorganization of products will take place as described below.

If you have any questions, feel free to contact the Sankyo Seisakusho sales office in your area.

Sincerely,

Masahiro Imai, Sales Division Head

Sankyo Seisakusho Co.

1. Products to be discontinued
Models: The RY Series of roller drives
RY40, 63, 80, 100, 125 and related servo amplifiers
2. Recommended replacement products
The RA Series or RU Series of roller drives
3. Order and service schedule
Orders will be closed on September 30, 2015.

Timeline schedule of reorganization

Date	Action
April 1, 2015	Notice of product discontinuation
September 30, 2015	Order entry to be closed for this product line (Once orders are filled, production will stop.)
↓	Service period
September 30, 2020 (when parts inventories run out)*	Servicing of machines to end (Service parts will no longer be available)

* On September 30, 2020 or when Sankyo Seisakusho's parts inventories are exhausted, whichever comes first.
